<i>A History of RRG</i>	<i>iii</i>
<i>A History of Covered Rolls</i>	<i>iv</i>

## **POLYMERS & FORMULATIONS**

Ch. 1	Rubber Compounding Material	1
Ch. 2	Polymer Selection Guide	18
Ch. 3	Natural Rubber (NR)	27
Ch. 4	Styrene Butadiene Rubber (SBR)	30
Ch. 5	Ethylene Propylene (EPDM)	34
Ch. 6	Nitrile Rubber (NBR)	43
Ch. 7	Specialty Nitrile Elastomers (XNBR, HNBR, PVC)	54
Ch. 8	Chloroprene (CR)	64
Ch. 9	Chlorosulfonated Polyethylene (CSM)	73
Ch. 10	Millable Polyurethane Rubber (AU, EU)	78
Ch. 11	Cast Polyurethane Elastomer (AU, EU)	84
Ch. 12	Thermoplastic Elastomer (TPE)	91
Ch. 13	Fluroelastomers (FKM)	94
Ch. 14	Silicone Elastomers (VMQ)	99
Ch. 15	Special Roll Polymer Additives	106

## **RUBBER TESTING & ANALYTICS**

Ch. 16	Rubber Testing for Roller Compounds	109
Ch. 17	Dimension, Tolerances and Industry Standards	127
Ch. 18	Inspection Devices for Measuring Rubber	135
Ch. 19	Durometer Measuring	139
Ch. 20	Durometer Hardness Gauges	142

## **POLYMER CONTRUCTION & PROCEDURES**

Ch. 21	Bonding Process, Rubber to Core	149
Ch. 22	Bond Failure Analysis	160
Ch. 23	Extrusion Building Techniques for Rolls	167
Ch. 24	Introduction to Calendering	180
Ch. 25	Rotational Polyurethane Casting	182
Ch. 26	Roll Covers, How Thick?	190
Ch. 27	Roll Ends	195
Ch. 28	Vulcanization	200
Ch. 29	Autoclave Curing	203
Ch. 30	Finishing a Rubber Covered Roller	214
Ch. 31	Crowning & Custom Tapers of Rollers	231
Ch. 32	Grooving of Rubber Rolls	238
Ch. 33	Maintenance of Rolls	248

## **CORE SUBSTRATES**

Ch. 34	Incoming Roll Inspection	251
Ch. 35	Core Construction and Design	254
Ch. 36	Roller Balancing Explained	257
Ch. 37	Roll Deflection	266
Ch. 38	Engineered Idlers and Rolls	277
Ch. 39	Hard Anodizing	280
Ch. 40	Electroless Nickle Plating	288
Ch. 41	- Laser Engraving	298

## **GENERAL INFORMATION**

Ch. 42	Getting Rolls to Market	301
Ch. 43	General Info: Short List Roll Uses	303
Ch. 44	General Info: US Customary System	304

<b>GLOSSARY</b>	308
-----------------	-----
