

# IRMA

INTERNATIONAL ROLLER MANUFACTURERS ASSOCIATION

## ROLL CALL NEWSLETTER

Volume 38

October 2025

### Our Chairman, Matt Umemtum, Says....

#### Why Join an Organization Like IRMA that is Currently Losing Members?

In a very niche industry serving manufacturers from all over the world, the value of collaboration and community cannot be overstated. Unfortunately, The International Manufacturers Organization (IRMA) previously the Rubber Roller Group (RRG) has seen a decline in membership from 188 in 2016 to 142 today. The reason for the decline is twofold: we have seen the number of manufacturers drop due to attrition and consolidation. Secondly, organizations are enrolling less of their people in IRMA. Thirty years ago, our industry was dominated by small family-run organizations that concentrated their efforts on small geographical markets. Today, we have fewer but much larger organizations serving customers throughout the nation and the world. The small “Mom and Pops” are simply going the way of the dinosaur. A second reason is that organizations will often only enroll one or two members. Years ago, a single organization would often enroll five or more of or their associates as members. Today, even though the organizations are larger, they support IRMA to a much lesser degree. Understanding and promoting the benefits of IRMA is crucial to our survival because without the manufacturer members, the suppliers will not engage, and the declining spiral will begin. Below are four reasons to promote IRMA within your company and to encourage more of your colleagues to join:

##### 1. Networking Opportunities

Joining IRMA provides unmatched networking opportunities within a very small business community. These connections with both suppliers and fellow manufacturers can enhance your organization’s growth. Members can connect with industry peers, share insights, and build relationships that may lead to collaborations, partnerships, problem solving and new business opportunities. Getting to know the key players in this very small world on a personal level over is the most valuable benefit we can offer. Attending the annual meeting is the best way to meet the right people in our industry to help your company and for individual members to grow their network.

##### 2. Access to Industry Resources

IRMA is an excellent channel to meet suppliers that will assist in solving the tough issues. When your customers have unusual requests or stingy problems that will not go away, the supplier connections made through IRMA can provide timely solutions to solve the toughest problems. The wealth of information available from IRMA suppliers can be crucial for staying ahead of industry trends, understanding market demands, and giving informed advice to your customers. The RRG Handbook is “The Bible” for our industry providing best practices and recognized specifications. The handbook is only available to our members. Having access to these suppliers and resources provides a competitive edge that is essential for your business to compete and win.

##### 3. Professional Development and Training

Continuous learning is vital in every industry and our annual meeting offers opportunities for growth at many levels. At the meeting, you will find training sessions, the mini supplier expo, the very popular cocktail hour(s) and expert speakers. These programs can enhance member skills and knowledge, helping the member to grow personally and professionally. The investment in attending the annual meeting is invaluable for organizations looking to advance and bring company sales, techniques, and strategies to the next level.

##### 4. Increased Visibility and Credibility

Membership in IRMA will improve your visibility and credibility. You will become better known within the industry. As we previously mentioned, you will meet fellow manufacturers and suppliers over the years. But the credibility goes far beyond the visibility within IRMA; your customers will know you are a member of this international trade organization. Being a current member, you have the gravitas of IRMA behind you when discussing standard tolerances or accepted industry practices with your customers or prospective customers. It signals to the customer that your company is committed to achieving top quality and is dedicated to continuous improvement.

As our organization faces a decline in member numbers, it is imperative to recognize and articulate the benefits of joining IRMA. By fostering connections, providing resources, offering professional development opportunities, and enhancing credibility, IRMA can play a vital role in the success of your businesses.

We need to understand that there are less manufacturers around and that there will be even fewer in the future. The pool has become more narrow but much deeper with larger manufacturers dominating the marketplace.

If you’re considering joining or re-engaging with IRMA, we encourage you to contact Robbi Miller at [contact@rubberrollergroup.com](mailto:contact@rubberrollergroup.com). Encourage others from your organization to join and to attend the annual meeting. Support, IRMA, your organization. Don’t become one of the extinct Mom and Pops.

## President Sinclair invites you to Music City!

Dear Members,

The countdown is on for the **2026 IRMA Annual Technical Meeting**, happening May 3–5 at The Westin Nashville. Set in the heart of downtown, steps away from Broadway and the Grand Ole Opry, “**Music City**” is the perfect backdrop for our industry to gather, connect, and learn.

This year’s meeting will focus on the topics you told us are top of mind:

- **Workforce retention and hiring** – finding and keeping the people who keep our industry strong.
- **AI and automation** – how new technology is shaping manufacturing in practical.
- **Cost pressures** – raw materials, freight, competition, and strategies to stay competitive.

**Roll-building innovation** – the latest advancements in materials and processes.

Each session is being chosen with care to deliver value and real takeaways you can bring back to your business.

Just as important as the presentations is the Networking. One of the best parts of IRMA is the chance to sit down with peers, suppliers, and competitors alike to share ideas. Bringing more than one person from your company gives you more connections, more learning, and a stronger presence. Let’s continue to make these meetings the best place to build relationships across our industry.

Nashville is a popular spring destination, so be sure to **book your hotel early** at The Westin to secure your spot in the center of the action. Between the sessions, the Mini Expo, and the city’s legendary live music scene, this is a meeting you won’t want to miss.

On behalf of the Board, thank you for your ongoing support and engagement with IRMA. We look forward to welcoming you and your teams to Nashville this May for an unforgettable meeting in Music City.

See you in Nashville!

-Tyler Sinclair

IRMA President

## Vice President, Jeff Hemmingway Request your input for the upcoming meeting

Hello to all ***International Roller Manufacturer Association Members-***

I hope everyone has had a great summer and has had a chance to make lasting memories with friends and family. As we enter the last few months of 2025, we are looking forward to planning our next IRMA meeting in 2026. Our 2025 meeting turned out to be a huge success! Fort Lauderdale’s Ocean B Resort was a beautiful setting and were outstanding hosts to our group. Many thanks to Robbi Miller for her hard work and dedication to making sure the venue and accommodations were excellent. We were privileged to have a great variety of speakers including Dr. Don McNeeley delivering his economic presentation “Lions, Tigers, and Tariffs Oh My..” and Alan Bernstein of HR Florida State Council, Inc on “Attracting & Retaining Top Talent”. Our meeting also included our first town hall session, “Heard it On the Street-Market Trends” hosted by Darrin Roe of Zeon Chemical.

During our 2025 Annual Meeting in Fort Lauderdale, the Board unanimously approved holding the 2026 annual meeting in “Music City” (Nashville). Our meeting will be held at The Westin in downtown Nashville in the heart of the nightlife and entertainment this iconic city has to offer. As a music enthusiast, there is no better place to be!

As I have mentioned in previous newsletters, one of my roles as the sitting VP of IRMA is to coordinate speakers for our meeting. Our Directors have reviewed the 2025 surveys and many of the requested topics echoed surveys from the previous years. The future state of the economy, workforce challenges, supply chain outlook, material cost and availability seem to be common themes, which makes sense as these factors largely determine the success or failure of our businesses. There was also a resounding request to hold more technical-related presentations pertinent to the roller industry and new technology associated with it. I would like to extend an open invitation for anyone interested in speaking on any of these topics or even offering additional topics of interest. We will have more details regarding our speakers and the agenda in our Spring Newsletter.

I look forward to seeing all of you in Nashville next May!

Please don't forget to register for this meeting and renew your membership while doing so. If you need assistance with registration or membership, please contact Robbi Miller at [contact@rubberrollergroup.com](mailto:contact@rubberrollergroup.com)

Best Wishes,

Jeff Hemingway

VP-IRMA

## Outline of Changes for IRMA

As we look ahead to another year as a trade organization, we are excited to complete our transition from the Rubber Roller Group to the **International Roller Manufacturers Association (IRMA)**. While our foundation remains the same, this change reflects our commitment to expanding into a new generation of professionals and strengthening our presence in the global roller industry.

Like many of you, we're facing new challenges that didn't exist just a decade ago. Costs across the board have increased—especially in hotel accommodations, catering, and event services. Full-service hotel options are becoming fewer, and planning group meetings that are both enjoyable and cost-effective has become increasingly difficult. Room rates, catering fees, and destination charges continue to rise, forcing us to evolve and adapt to sustain our operations.

To meet these economic challenges, we've identified key areas of focus for the coming year:

- **Membership Dues:** We are implementing a modest dues increase to help cover the annual costs of running the organization. Additionally, we're exploring automatic membership renewals to ensure continuous access to group communications and benefits.
- **Meeting Registration:** The average cost per attendee has nearly doubled since 2015, primarily due to increased costs for meeting space and catering.
- **Sponsorships:** We deeply appreciate the continued support from our supplier community. As a supplier myself, I recognize the value of networking and engagement through IRMA. Sponsorship opportunities for receptions and the golf tournament will continue—and they're not limited to suppliers. We welcome roller companies to get involved as well. Keep an eye out for some exciting new sponsorship options!
- **Newsletter Advertising:** Our newsletter remains a valuable tool for both communication and financial support. Advertising continues to play a key role in offsetting operational expenses.
- **Golf Outing:** Our golf outing is designed to be a self-sustaining and enjoyable event. It will continue to be part of our gathering in Nashville. Stay tuned for upcoming details on the venue in our next newsletter. We are committed to ensuring the continued success—and growth—of IRMA. Your feedback is always welcome as we chart a course for the future. I look forward to seeing everyone in Nashville!

Steve Chase, Treasurer

**The Supplier hosted Reception is always a great time to reconnect.**

**The general sessions covered the “Lions, Tigers and Tariffs Oh My” to “Attracting & Retaining Top Talent” and “Heard it on the Street” !**

At US Autoclave, we specialize in one off custom solutions utilizing either your current vessel or designing a new unit to fit your company's needs. From the time you first call to the startup of your autoclave, you will be in direct communication with the President of US Autoclave, Dan Risser. Please feel free to contact Dan directly on his cell phone – 419.231.1660. No matter what needs you have, we can help you find the best solution for your company.

### KEEPING YOU IN BUSINESS IS OUR BUSINESS

Industrial manufacturing breakdowns are inevitable, even with the most robust equipment. We are dedicated to minimizing your downtime through over-the-phone technical support, expedited replacement parts, site visits, and repairs.

### CONTROLS THAT PUT YOU IN CONTROL

We offer a wide array of methods to operate your autoclave, ranging from traditional controllers with pen recorders to modern PLC controllers with real time monitoring, data logging, and ethernet capabilities. We also provide replacement parts and technical service to keep you up and running.

### IMPROVED PRODUCTIVITY

We can design a custom cart system specific to your needs. In conjunction with our hydraulic door unlock/lock, hydraulic door swing, and cart winch systems, we can help you to automate much of your process, increasing your productivity and efficiency while lowering safety risks to your employees.

## COUNTRY MUSIC CAPITAL OF THE WORLD

There's more to Nashville than the live entertainment and bars on Broadway. In recent years, Nashville has propelled its city status by becoming a beacon for noteworthy dining, cultural experiences and fun for all ages through experiences like the Country Music Hall of Fame & Museum, the Grand Ole Opry, and the Ryman Auditorium, a church-turned-music venue with pews for seating.

If country music is not your thing, there are day and night events for you that include a dinner cruise on the Cumberland River, brewery and distillery tours, plantations, ziplining, hiking, pube crawls, museums and lots of sightseeing. Come early or stay over to see the best Nashville has to offer!
